Harlan J. Berk, Ltd. has presented an innovation in antiquities and numismatics for some time now. The system is simple. When you want an antiquity or coin in the sale, just bid the estimated price by phone or mail. We will send you the antiquity or coin immediately. No waiting for the closing of the sale. Any and all antiquities or coins not sold before the closing date will be sent to the highest bidder on April 21, 1993.

EXAMPLE—You bid estimate on an item valued at \$100.00 and if your bid is the 1st to reach us, you will receive the item immediately. If on the other hand, you bid \$75.00 on the same item and are still the high bidder at the end of the sale, the item will be mailed to you on the closing date, April 21, 1993.

If you are ever in the area, stop in and see us! Of course, it's best to call first.

147. NAXOS; 550-530 BC, Hemilitron, 0.25g. This is the smallest denomination recorded for Naxos with the other example having been struck 100 years later. This denomination is unpublished for this period. It is remarkable that dies could be engraved so beautifully for a coin that is smaller than a pencil eraser. If there was ever any question about whether the ancients had magnification, this coin answers that question. This miniscule masterpiece of archaic Greek art is of the highest rarity. 151. SICILY, SYRACUSE; 400 BC, Decadrachm, 43.2g. Signed by Euainetos. Gallatin RX/D I. It is highly unusual for a decadrachm of Euainetos to be struck on as broad a flan as this coin. It is complete in every way. The charioteer of the quadriga and the armorments in the exergue are all complete. More remarkable, all four dolphins are complete around the head of Arethusa and as a final mark of excellence, the name of Euainetos is complete and boldly visible. At some time in the past an American numismatic firm priced this coin and evidently sold it at \$65,000. EF	26000

155. SKIONE; ca. 480 BC, Tetradrachm; Franke-Hirmer pl 128 #393. Head of mythical city founder Protesilaos with helmet right/Prow of ship left with warrior. In Europe coins similar to this have been estimated in sales for as high as DM 30,000. This very excellent tetradrachm of Skione is more desirable than most because the name of the city is written on the crest of the helmet. Before a recent find less than 5 of these coins were recorded. Now the population has grown to about 40. This is an important rarity worthy of an excellent collection. Good VF	5500

579. SPANISH COLONIAL PAINTING, oil on canvas, Peru, 1780-1820. Her head is crowned with a gold crown and is surrounded by a delicate halo. She holds a palm branch in her left hand while both hands hold a beautiful painted model of the city gate which is representational of the city. The first story has an arched entrance with three windows above and an elaborate roof. The 2nd and 3rd stories are progressively smaller than the first one but of the same design and coloration. The entire structure seems to be made of bricks with blue, brown and red stars painted in their centers, in all a rather magnificent painting. 2500

HARLAN J. BERK, LTD.

is proud to announce our official association with

SIMON BENDALL

London/England

Telephone 233 9197

Simon will act as our official agent in London and Europe for the purchasing of coins, attending auction sales and answering questions from English and European clients on our Buy or Bid sales. We are quite excited about this association and know that it will be long and fruitful. If anyone reading this announcement does not know who Simon Bendall is, and I'm sure you'll be in the minority, he is one of numismatics' best scholars on Byzantine coins having authored a number of books and over one hundred articles on the subject. His knowledge does not stop by any means at just Byzantine coins, he in fact is fully knowledgeable on the entire subject of ancient coins. It is very gratifying to be able to associate ourselves in business with this distinguished gentleman who has been a friend and colleague for some 25 years.

Harlan J. Berk, President
